

TAITO

The Ultimate Weapon For Peace

Battle preparations are complete.
We will not retreat.

METAL
METALBLACK

BLACK™

Your fingers are shaking with the tremendous impact. Here is the greatest excitement of the century. Now the ultimate in push-button battles is here!

METAL BLACK

• **Game name**
Metal Black

• **Sales Point**

- Exciting new graphics with an amazing feeling of presence
- Bonus stage

In this stage, the player goes into LOCK (Lead Computer Optical sight mode) in which the cursor is locked on. On this stage, additional missiles are supplied and the player will see until the enemy is downed

• **Rules**

- ① 1 or 2 player game with buy in feature (2P interactive play possible)
- ② Game is over when the player loses his space battle ship or has cleared all stages

• **How to play**

Operate the 8-way joystick to control your space battle ship. You control your craft with lever direction. B You use press "A" button for normal shot. Pick up the power-up capsules to gain energy for special light wave shot. Press "B" button to release accumulated power for special light wave shot and give ultimate damages to your enemies

Use the A button for normal shot! Pick up items to increase your power! Press the B button to release your energy at a single blow. Action-packed scenes appear on the screen in rapid succession. And more than anything it's the incredibly real visual effects that will have you totally convinced. The perfect visual beauty lends further excitement to the player. There are also lots of great new features to double the fun. For example, now the enemy can also collect items to increase power!
